Submitted to His Highness

In Government Order No.Fl.4844-8/Ml.421-07-3 dated the 25th March 1908 an estimate for Rs.50,000 for the electrification of the Pumping Plant at Bangola for supplying water to the Mysore City was approved by Government, and to meet the cost of the work a sum of Rs.25,000 was placed at the disposal of the P.W. Department from the closing balance of the Mysore City Municipality, the balance being granted as a loan by Government to the Municipal Council.

The Chief Engineer having subsequently surrendered the allotment of Rs.25,000 made for the work during the year 1907-08 as it was not possible to work out any portion of the same before the close of the year, the Government, in their order No.13665-8/Ml. 421-07-10 dated the 30th June 1908 directed the resumption of the amount surrendered and requested the Chief Engineer to report the amount required for the work during the year 1908-09.

The Chief Engineer now states that the full amount of the sanctioned estimate, viz., Rs.50,000 is required for the work during the current year. The work being of an urgent nature, this amount has to be sanctioned as an additional grant to the current year's P.W. Budget, one-half the amount being, as already ordered, treated as an additional grant to the current year's budget of the Mysore City Municipality and the balance as a loan to the Municipal Council.

The Councillors are agreeable to the additions...

grant being given This may be sanctioned.

G.P.S.—50.000—12-5-08

Serial No

There is no surplus in the Current year budget of the Municipality & it is therefore not possible to Sanction an additional Grant Rs 25000 as now proposed What balance the Municipality has, is not even sufficient to be used as the working balance & may not be quite fair to Sanction the whole of Such balance as an additional Grant for new expenditure, leaving nothing for working purposes. Even if the whole of the balance is Sanctioned for expenditure the portion to be treated as loan from Govt will be Rs 30000 & not Rs 25000 as taken in the orders proposed to be issued Strictly Speaking the entire expenditure on the Electrification viz Rs 50000 Shd be Considered as a loan to the Municipality It is however usual to Govt to afford temporary accommodation to the

District Municipal Bds by advancing to them funds for working purposes when their balances fall below the prescribed minimum. If such accommodation is to be allowed to the Municipality Rs 20 000 may be treated as an advance from the Municipal Funds & the balance of Rs 30000 treated as loan. In that case the whole of the working balance required by the Municipality will have to be temporarily advanced to it and it shd be req^d. to take early steps to improve its financial position and care shd be taken in framing & sanctioning the Estimate for the next year that a balance & a sum at least equal to the working balance req^d., is left to the credit of the Municipality.

Revenues 410 / 08/9

The above note shows that that part of the proposal which relates to one half the amount being treated as an additional grant to the current year's budget of the Mysore City Municipality was passed under a misapprehension. The Municipality is asked to pay Rs 25,000 for the purpose but it has not got Rs 25,000. The estimated closing balance at the end of 1908-9 is only about which is about the same as the minimum working balance prescribed.

If the work has to be done this year, the only course is to advance the whole amount of Rs 50,000 from the general Revenues. In the Dewan's note of 10 12. 1908 the work is described as of an urgent nature. I am not aware of the degree of urgency of the electrification of the pumping plant at Belagola and therefore feel unable to express a definite opinion as to whether in the present financial position the sanction of a big loan for the purpose is desirable. If the matter is not pressing it may be over till next year.

The electrification of the pumping Plant at the Belgola System is a work which has already been deferred too long - and Complaints are rife as to the inadequacy of the water Supply to the City and Supply of irrigation to the lands under the Devaray Channel The necessary money should be advanced by Govt and the work ordered to be completed as soon as possible 1/1/10

5/09

Form—Contn sheet

GPB—a0 000—17 3 C7

Submitted to His Highness

For the electrification of the pumping plant at Belgola for supplying water to the Mysore City, His Highness was pleased to sanction in his order dated the 14th December 1908, an additional grant of Rs.50,000 to the current year's Public works Budget, one half of the amount being found from the funds at the credit ofthe Mysore City Municipality and treated as an additional grant to the budget of the Municipality and the other half as a loan from Government to the Municipal Council.

Before final orders could be issued in the matter, it was noticed that the balance at the credit of the Municipality was not much more than the minimum working balance prescribed, being only about Rs.20,000, and that consequently it was impossible to sanction an additional grant of Rs. 25,000 to the budget of the Municipality. The Financial Secretary says "that if the work has to be done this year, the whole amount of Rs. 50,000 has to be advanced from

General and Revenue Departments.

Sir,

Adverting to Government Proceedings No.Fl 4844-6/M1 42-07-3 dated the 25th March last, directing that arrangements be made for carrying out the electrification of the Pumping Plant at Belagola for the Mysore City Water Supply, I have the honor to inform you that the Executive Engineer, Water Supply and Stores Division, reports that he has made arrangements for obtaining the required plant and has also obtained tenders for the construction of the necessary buildings for installing the plant &c. Beyond these he could not proceed faster and work out any portion of the additional grant of Rs. 25,000 sanctioned from the current year's Municipal Budget, the project having been sanctioned late in the year. It is therefore requested that the allotment made for the purpose be resumed and made available during the next official year.

I have the honor to be,

sir,

Your most obedient servant,

for Chief Engineer of Mysore.
